

# RESERVOIR STUDY OF THE SWAN HILLS FORMATION CAROLINE 'B' POOL WEST CENTRAL ALBERTA

This study examined wells and cores from the Swan Hills Formation of the West Caroline 'B' Pool and compared them to the nearby Caroline BHL 'A' Pool. It provides an assessment of the nature of the two play types and key factors controlling the quality of the reservoir in the two pools.

## Product Includes:

- Fully documented report illustrated with figures, maps and core photos;
- 9 maps displaying facies, isopach and structure;
- 12 stratigraphic cross sections;
- Database of 30 wells ('B' Pool Only);
- 18 core descriptions with internally consistent correlations ('B' Pool Only).
